

MODBUS RTU MASTER + SLAVE SERIAL SYSTEM - ELECTRIC

SOLENOID VALVE ELECTRICAL CONNECTION

**ECONET MASTER
ECONOMISER**

BEGA

The ECONET control unit PLUS version can be connected to the BEGA touch screen module. Installed in the general control panel of the system, it can display/modify all the parameters of the ECONET control unit remotely. Moreover, it is provided with Wi-Fi and Ethernet port and can be controlled from a PC through a Turbo application.
